Product Name: Eclipse Floor
MSDS ID Number: D-06207

MSDS Date: 12/08/2006

HMIS Rating:

Health:	1
Flammability:	1
Reactivity:	0
Personal Protective Equipment:	B (See Section 8)

Potential Health Effects:

Inhalation:

Vapor may cause irritation of the nose, throat and respiratory tract. Vapor can accumulate in confined spaces and poorly ventilated areas causing headache, nausea and drowsiness.

Eye Contact:

Contact may cause irritation resulting in burning, tearing, redness and swelling. Vapor may cause eye irritation.

Skin Contact:

Skin contact causes irritation.

Skin Absorption:

Not expected to be harmful if absorbed through the skin.

Ingestion:

May cause irritation to the linings of the mouth, esophagus, and stomach.

Ingestion of large quantities may cause slight health hazard.

SECTION 4 - FIRST AID MEASURES:

Skin Contact:

Wash with soap and water.

If discomfort or irritation persists, consult a physician.

Remove contaminated clothing and wash before reuse.

Eye Contact:

Flush eyes with water for at least 15 minutes while holding eyelids open.

Get immediate medical attention.

Ingestion:

Do not induce vomiting.

Never give anything by mouth to an unconscious person.

If discomfort or irritation persists, consult a physician.

Inhalation:

If symptoms develop, get fresh air. If symptoms persist, consult a physician.
If breathing has stopped, give artificial respiration then oxygen if needed.

SECTION 5 - FIRE AND EXPLOSION HAZARD DATA

Flash Point:	205°F
Flash Point Method:	Pensky Marten Closed Cup
Lower Explosion Limit:	Not Available
Upper Explosion Limit:	Not Available
Auto-Ignition Temperature:	Not Available

NFPA Rating:

Health:	1
Flammability:	1
Reactivity:	0

Extinguishing Media: In case of fire, use water spray, dry chemical, Carbon dioxide or foam.

Special Fire Fighting Procedures:

Wear self-contained breathing apparatus and complete personal protective equipment when potential for exposure to vapors or products of combustion exist. Water may be used to cool containers to prevent pressure build-up and possible auto-ignition or explosion. Avoid breathing hazardous vapors or products of combustion, keep upwind. Isolate area and keep unnecessary people away. Prevent run-off from fire control or dilution from entering streams or drinking water supplies.

No special procedures specific to this product.

Unusual Fire and Explosion Hazards:

When mixed with air and exposed to an ignition source, vapors can burn in open air or explode in confined spaces. Vapors are heavier than air and may travel along ground to ignition sources such as electrical equipment, smoking materials, welding equipment, and pilot lights. Do not cut, drill, grind or weld on or near container whether empty or full. Keep container closed except when in use. Heat from fire can generate flammable vapor. May ignite at temperatures below auto-ignition and normal flash point.

SECTION 6 - ACCIDENTAL RELEASE MEASURES:

Spills/Leaks:

Use proper personal protective equipment. Do not flush to sewer or allow to enter waterways. Keep unnecessary people away.
Contain and/or absorb spill with inert material (i.e. sand, vermiculite) then place in a suitable container. For large spills, dike area and pump waste material into closed containers for disposal or reclamation.

SECTION 7 - HANDLING AND STORAGE

Precautionary Measures:

Avoid contact with eyes, skin and clothing.
Practice good personal hygiene to avoid ingestion.
Use only with adequate ventilation.
Below grade and other applications with poor natural ventilation require forced ventilation and use of respiratory protection.
Keep container closed tightly when not in use to avoid unnecessary release of vapors and to prevent spills.
Do not cut, drill or weld on or near containers whether full or empty. Vapor and liquid may be combustible if heated above 205°F. Residue may ignite causing fire/explosion.
Wash clothing before reuse.
FOR PROFESSIONAL USE ONLY. KEEP OUT OF CHILDREN'S REACH.

Engineering Controls: Not generally required during normal use. Fans and other methods to improve general ventilation and increase exchange of fresh air are recommended if odor is irritating or objectionable. Exhaust fans or other methods to improve ventilation are required below grade and other poorly ventilated applications. (Contact your Grace sales representative for additional information).

Personal Protective Equipment:

Respiratory Protection: Respiratory protection is not normally required when product is used in exterior applications. However, a chemical cartridge respirator with organic vapor cartridge is recommended if odor is irritating or objectionable. A respirator would be required in below grade and other poorly ventilated applications. A chemical cartridge respirator with organic vapor cartridge and a prefilter for dust/mist is recommended during Shot Crete applications. (Contact your Grace sales representative for additional information.)

Skin Protection: Rubber or other impervious gloves should be worn to prevent skin contact.

Eye Protection: At minimum, safety glasses with side shields should be worn where exposure to excessive dust or spray is likely.

Work/Hygiene Practices: Use good personal hygiene practices. None beyond those noted above.
